

“The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is a choice.
–Brian Herbert

Government College of Education, is striving to enhance the capacities, abilities and willingness towards learning of prospective teachers. We try to disseminate the new knowledge and trying to draw the wisdom our pupil teachers already possess with our innovative teaching strategies. Moving towards the goal to analyze the similarities as well as the nuances in imparting the theory as well as set of practical skills we are visualizing to stay beyond the conventional boundaries and focus on the very essence of all our actions.

CREATIVE IMPULSE

The Department of Fine Arts at Government College of Education, Chandigarh is committed to professional training of Education in the Teaching of Fine arts. Students choose this subject from a diverse group of electives and here we provide an opportunity to develop their skills academically and professionally through a wide variety of educational programs, seminars, competitions and resources. Regular interaction between the Pupil teachers and the teacher educator creates a close relationship between them which further develops critical thinking and creative growth among them.

The department's courses aim to instill an understanding of and appreciation for the art history, Teaching methodology and their contributions to the growth and development of Present Education system. Most of the lessons are taught with the use of smart class education system which enables the students to access the information and communication technology tools in the form of laptop and Projector. The presentation of various topics on a wide screen using software like PowerPoint, Coral draw, Photoshop, etc has motivated the students to be a part of Art activities, seminars, visiting lectures, demonstrations, and exhibitions to be familiar with and also develop competency in making a variety of teaching aids, using different methodologies, and other teaching and learning material.

The core of teaching and learning process in art department is to make student understand and evaluate contemporary thinking about art, exposure with modern technology. We strive for more intimate learning experience that engages students in personal discovery. The result presents distinguished alumni roster which

includes scholars and artists who have made remarkable contributions in the field of art education.

EDUCATION FOR THINKING BEINGS

Education must also train one for quick, resolute and effective thinking. To think incisively and to think for one's self is very difficult. We are prone to let our mental life become invaded by legions of half truths, prejudices, and propaganda. Education must enable one to sift and weigh evidence, to discern the true from the false, the real from the unreal, and the facts from the fiction. The function of education, therefore, is to teach one to think intensively and to think critically.

Education is not learning of facts, it's rather training of mind to think.

-Albert Einstein
