

GOVERNMENT COLLEGE OF EDUCATION, SECTOR 20-D,
CHANDIGARH

REPORT OF CAREER FESTIVAL AND CAREER EXHIBITION

(January 30-31, 2026)

Career Fest and Career Exhibition were successfully organized by the students of Post Graduate Diploma in Guidance and Counselling of the Government College of Education at Government Model Senior Secondary School, Sector 20B and at Government Model Senior Secondary School, Sector 21, Chandigarh on 30th and 31st January 2026. The programme was planned with the primary objective of providing systematic career awareness and guidance to school students so that they could make informed decisions regarding their future academic and professional paths.

The Career Exhibition showcased a wide spectrum of career options related to science, commerce, humanities, professional courses, vocational education, and skill-based careers. Special emphasis was also laid on emerging career trends and alternative career pathways. The PGDGC students prepared well-researched and informative charts, posters, models, and visual aids that explained various career options in a simple and student-friendly manner. Details regarding eligibility criteria, required skills, educational pathways, entrance examinations, and future prospects were clearly presented, making the information easily understandable for school students.

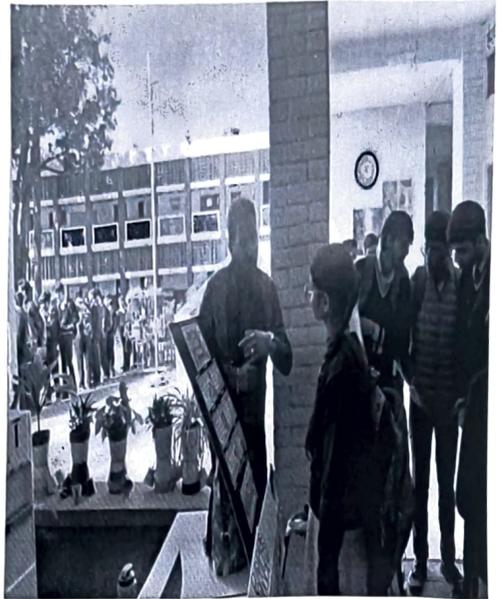

An interactive approach was adopted throughout the event, which made the Career Fest engaging and effective. The PGDGC students interacted directly with school students, addressed their queries patiently, and provided personalized guidance based on individual interests and abilities. This interactive environment encouraged students to actively participate, ask questions, and explore career possibilities beyond conventional choices.

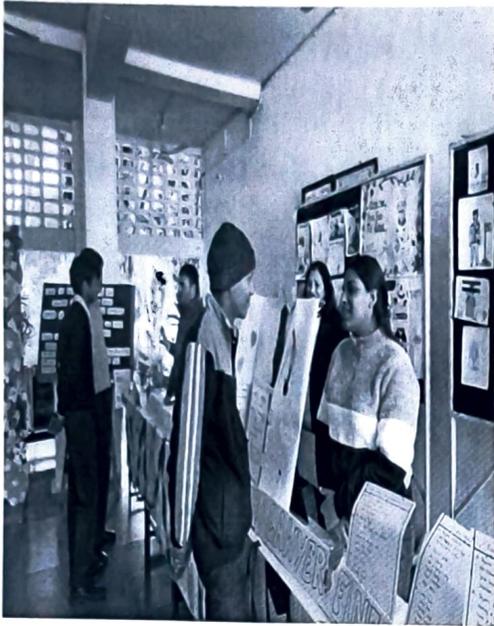

The event was organized under the able mentorship and guidance of the Incharge Guidance cum Psychology Lab, TG Incharges, and School Counsellors. Their constant support, supervision, and expert inputs played a crucial role in the successful planning and

execution of the programme. Their mentorship ensured that the event remained focused on its objectives and maintained academic relevance and discipline throughout.

Students from GMSSS-20B and GMSSS-21 showed great enthusiasm and interest during the Career Fest. Many students actively engaged in discussions, sought clarification regarding career options, and expressed appreciation for the guidance provided. The programme proved to be highly beneficial in helping students gain clarity about their strengths, interests, and future goals.
